## SPECIAL ABILITIES

**Burn** Yoon can accept 1 point of burn to use her fan of flames infusion wild talent, which modifies her fire blast. She can accept only 1 point of burn per round (maximum 6 points total). For each point of burn she accepts, Yoon takes 1 point of nonlethal damage. This damage can be healed only by a full night's rest, and it can't be reduced or redirected.

**Gather Power** If she has both hands free, Yoon can gather power as a move action. This creates a loud display in a 20-foot radius centered on Yoon, and it allows her to reduce the burn cost of her fan of

flames wild talent to 0 (as long as she uses fan of flames in the same round). If Yoon takes damage during or after gathering power but before she releases her fan of flames, she must succeed at a concentration check (1d20+4) or lose the gathered energy. The DC is equal to 11 + the amount of damage Yoon took. If she fails, Yoon must accept 1 point of burn.

**Infusions** The following infusion alters Yoon's fire blast.

*Fan of Flames:* If she accepts 1 point of burn, Yoon's fire blast damages all creatures in a 15-foot cone (Reflex DC 13 half). This does not require an attack roll.

**Kinetic Blast** As a ranged touch attack, Yoon can unleash a fire blast at a single target up to a range of 30 feet. She must have one hand free to aim the blast. The blast is considered magical for the purposes of overcoming damage reduction.

**Small** Because of Yoon's age, she is Small, and her statistics reflect the appropriate size adjustments.

**Spell Penetration** Yoon gains a +2 bonus on caster level checks (1d20+3 total) to overcome a creature's spell resistance. Yoon's kinetic blasts are subject to spell resistance.

**Trustworthy** Yoon gains a +1 bonus on Bluff checks to fool someone.

**Utility** Yoon has the following utility wild talent.

*Basic Pyrokinesis:* Yoon can reproduce the effects of *flare*, *light*, and *spark* (Pathfinder RPG Core Rulebook 284 and 304, Pathfinder RPG Advanced Player's Guide 246); *light* creates heat like a normal flame.

**Combat Gear** Yoon's combat gear is described below.

*Potion of Cure Light Wounds:* Yoon's potion heals the drinker of 1d8+1 points of damage.

Yoon's short life has been filled with tragedy and adventure. Hailing from Minkai's Oda province in distance Tian Xia, Yoon lost her adventurer mother at the age of five to a battle with an aquatic threat. Then, just before her eighth birthday, Yoon's father and grandmother took her to Oda for a fireworks festival that honored Desna. As the fireworks faded, though, Yoon saw flames shooting from the building where her father had gone to meet with fellow Desnan dissidents, who were unhappy with Minkai's harsh imperial regency. Just when the imperial soldiers moved to cut them down, Yoon's grandmother unleashed her pyrokinetic power to allow Yoon to escape. Yoon fled the city, intent on reaching Hwanggot, her mother's homeland. Along the way, Yoon met a kind traveler, who helped her unlock her own pyrokinetic abilities. Yoon still hopes to one day reach Hwanggot—via an overland route, of course, since she despises water. However, she is also eager to see the world and use her newfound abilities to help those in need.

“Gom-Gom likes it when the fire burns.  
Don'tcha, Gom?”
